Rehabilitation  
Keep*

# Eco-Expert

## **Alicia Walker – Program Coordinator at Amos Rehabilitation Keep**

The ARK was started in the early 80s when oceanographer Tony Amos began to find injured sea turtles and aquatic birds on the beaches and in the local environment. In the beginning there were only a few animals a year, but the program has grown into an organization that handles about 1500 animals each year and has become an important facility on the Texas Coast. Today the ARK specializes in marine turtles and birds of the South Texas coast and is the only facility that goes to rescue many of the animals. Volunteers rescue and rehabilitate animals primarily from Mustang, North Padre Islands and nearby towns. Alicia will present about current sea turtle and other wildlife rehab at the ARK, the major impacts on wildlife in our area, and what people can do to make a difference.

- Class size is limited to 24 participants.
- This program is FREE of charge and open to individuals and families.
- Walk-ins are welcome on a first come first served basis.
- This program is for individuals and families with children ages 12 and older.
- To reserve a space, please register at <http://register.ccparkandrec.com>.
