History  
of Oso Bay*

# Eco-Expert

## **Caleb Harris – Education Coordinator at Oso Bay Wetlands Preserve**

Oso Bay is a small tertiary bay system that has only one contributing creek. Human activity has had a profound effect on this small bay for hundreds of years. In the last one hundred years human activity has drastically re-formed Oso Bay into an urban watershed. Come learn about the drastic changes that have occurred to Oso Bay as we ask hard questions about preservation and conservation.

- Class size is limited to 24 participants.
- This program is FREE of charge and open to individuals and families.
- Walk-ins are welcome on a first come first served basis.
- This program is for individuals and families with children ages 12 and older.
